ITEMS 1–9198 JANUARY 1960 VOL. 24, No. 1

The subject index for volume 24 of the Bibliography of Agriculture will appear as number 12 of volume 24, the issue of December 1960.

Abbreviations used in this publication are from the United States Department of Agriculture Miscellaneous Publication 765, List of Serials Currently Received in the Library of the United States Department of Agriculture as of July 1, 1957.

Call numbers following the citations are those of the United States Department of Agriculture Library. Please use them when requesting publications on loan from the Library. Publications are loaned only to employees of the Department and to other libraries. Periodicals, foreign statistical publications, and rare books will not be loaned out-of-town.

Except for printed publications of the Department of Agriculture which are usually available in limited supply for free distribution, the publications listed herein are not available for free distribution from the Department. However, a photoprint or microfilm copy of most publications listed may be obtained from the Library. Copying charges for each periodical article or book are:

MICROFILMS:
$1.00 for each 30 pages or fraction thereof for each periodical article or book.

PHOTOPRINTS:
$1.00 for each 4 pages or fraction thereof for each periodical article or book.

ALL CHARGES ARE CASH WITH ORDER. (Only Federal agencies are exempt.)
Enclose payment in cash, library coupon, check, or money order drawn to the Library, Department of Agriculture. Payment for orders originating outside of the United States should be made by international money order or by draft on an American bank, payable to the U. S. Department of Agriculture Library. UNESCO book coupons are acceptable.

LIBRARY COUPONS—United States Department of Agriculture Library coupons valued at $1.00 each may be ordered in any quantity.

The printing of this publication has been approved by the Bureau of the Budget. (Jan. 23, 1959).

Scope of the Bibliography of Agriculture

The Bibliography of Agriculture is an index to the literature of agriculture and the related sciences received in the Library of the United States Department of Agriculture. For scientific and technical publications it is as complete as possible, but only selected popular publications are indexed. Publications from any country are indexed if they are in one of the languages of western Europe or in Russian, or if they have summaries, abstracts, or titles in one of those languages.

The table of contents on the preceding two pages shows the subject scope of the Bibliography in some detail. For the most part references on the processing of agricultural products are limited to those on primary processing. For example, spinning of textile fibers is included but not weaving and finishing.

In general, literature received more than a specified time after publication (six months for that from the United States and Canada, one year for that from other countries) is not indexed. Exceptions are made for important scientific publications. Unsigned articles and those signed with initials or pseudonyms are usually omitted, as are editorials, most letters to the editor, and columns appearing regularly.

CHECKLISTS

Checklists of publications of the U. S. D. A., State Agricultural Experiment Stations, and State Agricultural Extension Services are prepared for the convenience of those who wish to follow the literature from these sources. All such publications are included also in the classified section and indexed in the author and subject indexes.

U. S. D. A. PUBLICATIONS

Periodicals issued by the Department are listed in the November issue only; articles in them are indexed currently.

Domestic requests for publications in the various Department series will be filled free upon application to the Office of Information, United States Department of Agriculture, Washington 25, D. C., as long as the supply lasts. They may also be purchased from the Superintendent of Documents, Washington 25, D. C.

Bureau publications may ordinarily be obtained free of charge from the issuing bureau as long as the supply lasts.

Foreign institutions, organizations and agencies which issue publications may obtain United States Department of Agriculture publications in exchange by writing to the United States Department of Agriculture Library, Washington 25, D. C.

The subject index for volume 24 of the Bibliography of Agriculture will appear as number 12 of volume 24, the issue of December 1960.

Abbreviations used in this publication are from the United States Department of Agriculture Miscellaneous Publication 765, List of Serials Currently Received in the Library of the United States Department of Agriculture as of July 1, 1957.

Call numbers following the citations are those of the United States Department of Agriculture Library. Please use them when requesting publications on loan from the Library. Publications are loaned only to employees of the Department and to other libraries. Periodicals, foreign statistical publications, and rare books will not be loaned out-of-town.

Except for printed publications of the Department of Agriculture which are usually available in limited supply for free distribution, the publications listed herein are not available for free distribution from the Department. However, a photoprint or microfilm copy of most publications listed may be obtained from the Library. Copying charges for each periodical article or book are:

MICROFILMS:
$1.00 for each 30 pages or fraction thereof for each periodical article or book.

PHOTOPRINTS:
$1.00 for each 4 pages or fraction thereof for each periodical article or book.

ALL CHARGES ARE CASH WITH ORDER. (Only Federal agencies are exempt.)
Enclose payment in cash, library coupon, check, or money order drawn to the Library, Department of Agriculture. Payment for orders originating outside of the United States should be made by international money order or by draft on an American bank, payable to the U. S. Department of Agriculture Library. UNESCO book coupons are acceptable.

LIBRARY COUPONS—United States Department of Agriculture Library coupons valued at $1.00 each may be ordered in any quantity.

The printing of this publication has been approved by the Bureau of the Budget. (Jan. 23, 1959).

Scope of the Bibliography of Agriculture

The Bibliography of Agriculture is an index to the literature of agriculture and the related sciences received in the Library of the United States Department of Agriculture. For scientific and technical publications it is as complete as possible, but only selected popular publications are indexed. Publications from any country are indexed if they are in one of the languages of western Europe or in Russian, or if they have summaries, abstracts, or titles in one of those languages.

The table of contents on the preceding two pages shows the subject scope of the Bibliography in some detail. For the most part references on the processing of agricultural products are limited to those on primary processing. For example, spinning of textile fibers is included but not weaving and finishing.

In general, literature received more than a specified time after publication (six months for that from the United States and Canada, one year for that from other countries) is not indexed. Exceptions are made for important scientific publications. Unsigned articles and those signed with initials or pseudonyms are usually omitted, as are editorials, most letters to the editor, and columns appearing regularly.
